

Yiko[•]

outdoor luxury

Manutti[•]

Designed by Stephane De Winter

Elegance and curved lines from every angle and exceptional seating comfort were the drivers behind the design of Yiko. The seat – woven in a recycled two-tone wicker – evoke a familiar sense of nostalgia, and offers exceptional comfort. The teak frame hints at both traditional craftsmanship and pure, Japanese-inspired minimalism. Available in warm teak natural, Yiko effortlessly complements both classic and modern environments.
